My artwork is inspired by an intense love for flora and fauna. I strive to highlight the beauty of the natural world, the importance of environmental conservation, and the human-animal bond.

My paintings depict fictitious characters surrounded by plants and animals. I feel it's important to bring attention to unusual or endangered plants and animals by representing them in artwork.

I studied painting, sculpture, and fiber arts at The School of the Art Institute of Chicago. While there, I was drawn to traditional portrait painting, surrealism, and folk art. I've shown my work in Chicago, Los Angeles, New York City, Houston, Minneapolis, and New Jersey. Some recent achievements include the Liquitex "Just Imagine" Residency 2023, and Aqua Art Miami as a 14C Showcase artist in 2023. I currently live and work in Jersey City.
